Developing strategies is the fourth step in the VMOSA (Vision, Mission, Objectives, Strategies, and Action Plans) process outlined at the beginning of this chapter. Developing strategies is the essential step between figuring out your objectives and making the changes to reach them. Things are getting pretty intense in this turn-based action game. A rowdy gang of Vikings and tons of other brutes are getting together to challenge one another in a battle

arena. Team up with one of them and see if you can conquer all of your competitors. This is the second video tutorial where I have played the first bootcamp scenario in an effort to teach some of the basics. Unfortunately, since I played the entire scenario, start to finish with a lot of babbling before hand, the file is nearly 85MB and about 22 minutes in length. Strategy testing against scenarios helps both the decisionmaker and strategy team by exploring consequences of seemingly favorable strategic plans. There are risks in inaction as well as unintended or unforeseen costs in preferred options. This article argues that logistics constrains strategic opportunity while itself being heavily circumscribed by strategic and operational planning. With the academic literature all but ignoring the centrality of logistics to strategy and war, this article argues for a reappraisal of the critical.
